

Roughneck (ROU11130)

Club Hammer Fibreglass Shaft 1.13kg (2.1/2 lb)

This Roughneck Club Hammer offers superior strength and safety. Manufactured from drop-forged, hardened and tempered steel. Chamfered striking edges prevent chipping and damage to striking surfaces. Its solid fibreglass core handle is securely attached to the head with a powerful epoxy bond. The handle is fitted with an air-cushioned grip for exceptional comfort and reduced fatigue. A lanyard hole in the base of the handle allows for safe and secure tethering when working at height. 1 x Roughneck Club Hammer Fibreglass Shaft 1.13kg (2.1/2 lb)
