

R.S.T. (RST16S)

Plasterer's Finishing Trowel Carbon Steel Soft Touch Handle 16 x 4.1/2in

This R.S.T. Finishing Trowel has a strong, durable carbon steel blade and invisible rivets. For user comfort it has an ergonomically shaped, soft touch handle. Finishing trowels are used in smoothing and finishing the surface of plaster. They help to compact the surface and add to the quality and durability of the work. The RST16S Plasterer's Finishing Trowel Carbon Steel Soft Touch Handle has the following specifications: Size: 16in. Weight: 490g.
