Aviation Tin Snips Straight Cut 250mm (10in)

The BlueSpot Straight Cut Aviation Tin Snips are specially designed to cut through aluminium, sheet metal, leather, tiles, rubber and shingles. Manufactured from drop forged carbon steel and heat treated for increased durability. With a serrated lower jaw to prevent slips. They use a compound leverage for maximum cutting power and can cut up to 18 gauge steel. Fitted with soft grip handles for increased comfort and a lever lock for safe storage.
