Closing the loop on flooring waste

At FloorLoop, our mission is to **recycle 100%** of flooring waste through dedicated, accessible schemes that maximise the value of raw materials.

We are committed to minimising landfill disposal and reducing waste conversion to energy by prioritising material reuse. By centralising recycling through flooring distributors, we **empower independent contractors and retailers** – regardless of space limitations – to participate effectively.

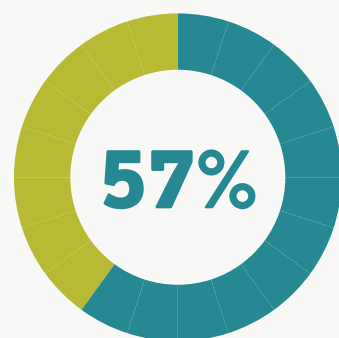

Our goal is to **build a profitable, sustainable recycling ecosystem** that benefits the entire flooring supply chain, motivating businesses to embrace recycling as a standard practice.

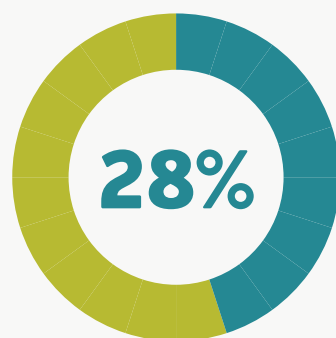

4.2 MILLION TONNES

Flooring waste per year across Europe

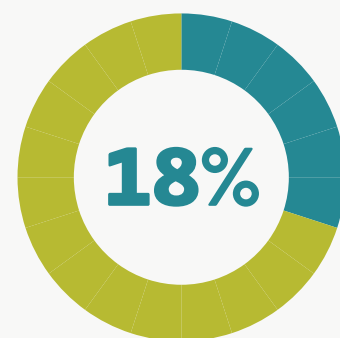

UK Carpet Waste Summary

OF CARPET WASTE GOES TO LANDFILL

IS SENT TO ENERGY RECOVERY FACILITIES

IS RECYCLED AND REUSED

Carpet

FloorLoop accepts all carpet types, helping to divert a wide range of flooring waste from landfill. Both uplifted carpets and clean installation offcuts are welcome, making recycling simple for contractors, retailers, and fitters at every stage of the job. To protect the quality and efficiency of the recycling process, carpets installed with adhesive or using double-stick methods are not accepted at this time.

- ✓ Dry & Uplifted Carpet
- ✗ No Adhesive Residue
- ✗ No Soiled Carpet

1x Bulk Bag
£85.00

LVT (Luxury Vinyl Tile)

All brands and manufacturers of LVT are accepted through FloorLoop's recycling programme. We take uplifted material and installation offcuts, helping contractors, retailers, and installers reduce waste across every stage of the flooring lifecycle. To protect the recycling stream, we cannot accept LVT bonded with adhesive at this time.

- ✓ Dry & Uplifted LVT / SPC
- ✗ No Smoothing Compound
- ✗ No Screed or Plywood

1x Bulk Bag
£75.00
ex.VAT

PU Underlay

FloorLoop is proud to accept all brands and manufacturers of polyurethane (PU) underlay, including uplifted material and clean offcuts from installation. These foams are a key resource in our recycling process, helping to produce new sustainable underlay products while reducing landfill waste. By capturing PU underlay at end-of-life, FloorLoop closes the loop on one of the industry's most common and recyclable materials.

- ✓ Dry & Uplifted PU Underlay
- ✗ No Adhesive Residue
- ✗ No Rubber Crumb or Sponge

1x Bulk Bag
£65.00
ex.VAT

Vinyl (Smooth & Safety)

FloorLoop accepts smooth and safety vinyl flooring from all manufacturers as part of our UK-wide recycling rollout. We take both installation offcuts and uplifted material, ensuring valuable PVC resources are recovered and reused rather than sent to landfill. To maintain a clean recycling stream, vinyl flooring with adhesive or residues cannot be accepted at this stage.

- ✓ Dry & Uplifted Sheet Vinyl
- ✗ No Screed or Plywood
- ✗ No Smoothing Compound
